

## Reflections of a Sacred Dream

Through the influence of Japanese-inspired haiku, stop and evaluate your current state of mind. Are you focused on spending your time and thoughts on accumulation of material items that will be gone tomorrow? Is your mind filled with stress and worry about seemingly important matters that will not matter in time to come? Throughout the poetry in this illustrated book, free your mind and look around you right where you are at the present time. See for yourself the spiritual beauty of nature as it unfolds in front of your senses every day. Study the concepts of balance and harmony in the universe. Only then can you appreciate what you are sharing with everything else in your universe as you travel on your sacred journey.
