

## The Natural Method of Voice Production in Speech and Song (Classic Reprint)

Excerpt from The Natural Method of Voice Production in Speech and Song  
At the request of Professor S. H. Clark, Professor of the Department of Public Speaking at the University of Chicago, Chicago, Illinois, Professor John M. Clapp, Professor of English at Lake Forest University, Lake Forest, Illinois, and many others, the author has decided to put his views on voice production into book form. The fact that the study of voice production requires a knowledge of physics as well as of anatomy and physiology led to the collaboration of the late Professor William Hallock, Professor of Physics at Columbia University, and the author in what they agreed should be a strictly scientific investigation of the voice mechanism. Up to the time when this investigation began, the study of physics had been Professor Hallock's chief occupation. About the Publisher  
Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
